

# Consulting & Design Services

## Internet of Things

Visualize. Analyze. Realize

# Is your business ready for IOT ?

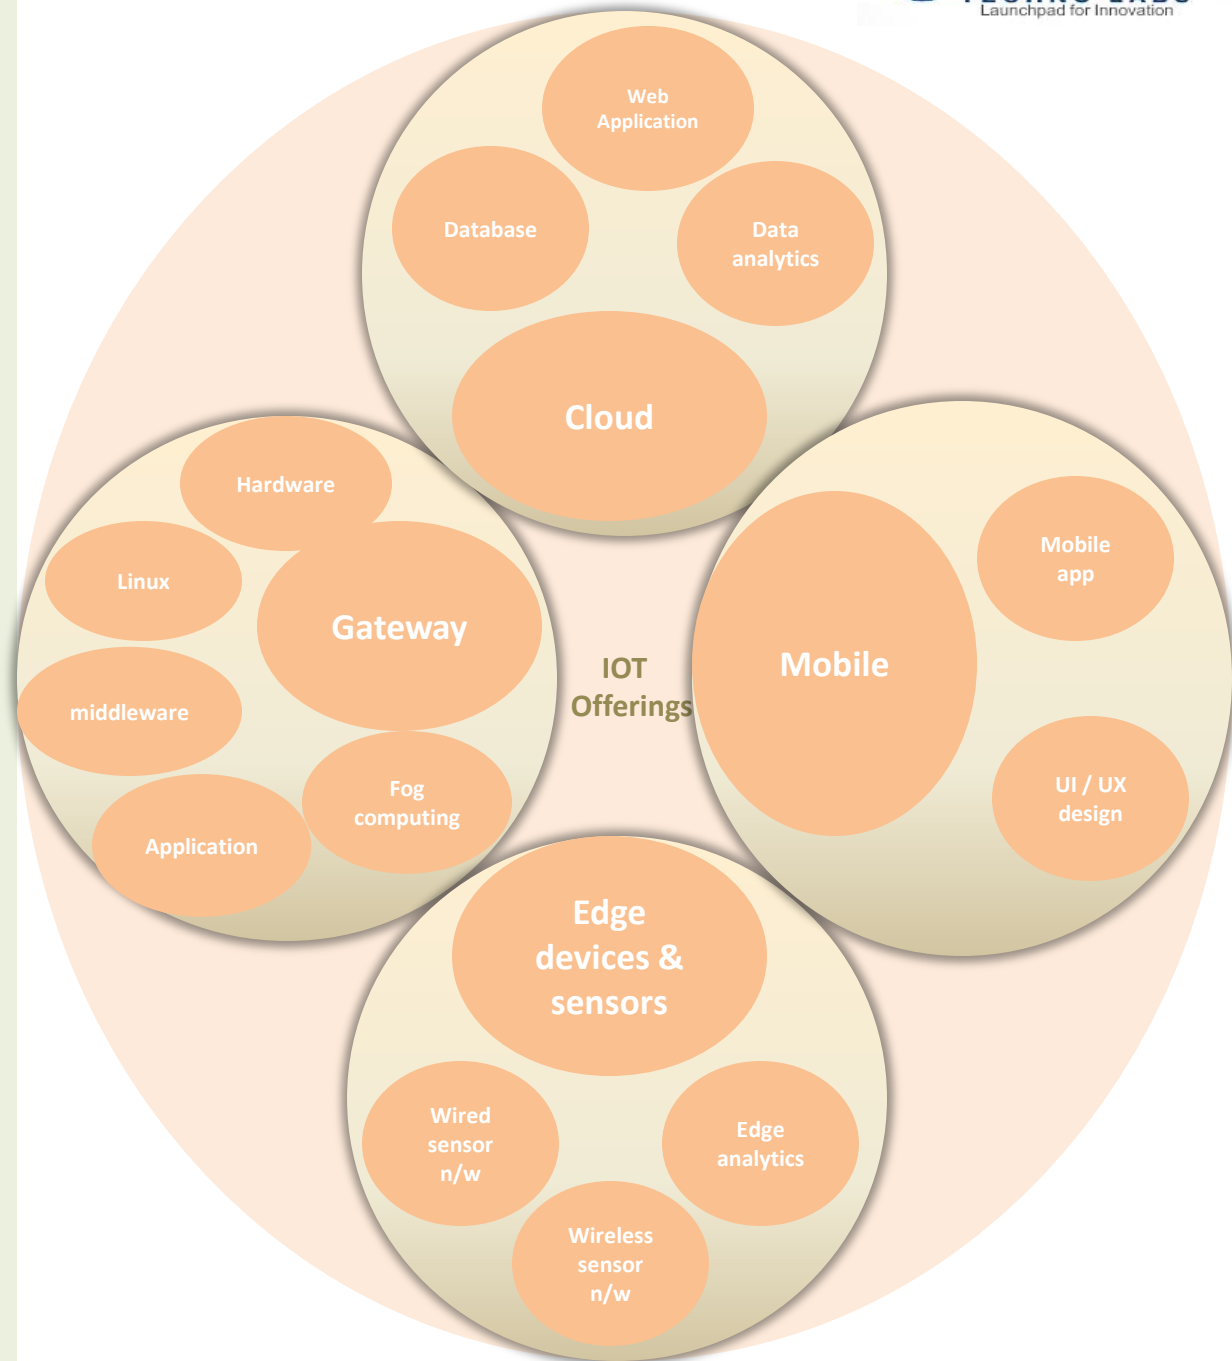

Infinite possibilities emerge  
with Internet of Things

- Optimizing operations in buildings & facilities
- Energy & cost savings
- Enhancing efficiency within enterprises
- Improving machine uptime & customer delight

# Capture IOT market share with Tangent's services

- Low power **edge device** development
- Wired & wireless **sensor network** deployment
- Custom **gateway** development to establish communication between edge nodes and cloud
- Customised **web & mobile app** development
- **UX & HMI design** to deliver USPs to the customer

## Automotive

- Connected car
- Fleet management
- Navigation
- Location tracking
- Driver performance

## Plant

### Automation

- Energy management
- Machinery monitoring
- Process control
- etc

## Building Automation

- Energy management
- Water management
- Appliance control
- Security

**Public cloud**  
**On-Premises cloud**  
**Hybrid solution**

**Database**  
**Data Analytics**  
**Machine learning**  
**MQTT / CoAP /**  
**HTTPS etc**

**Web application**  
**Mobile application**  
**SMS services**  
**REST APIs**  
**Notifications**  
**Email services**
